Race 6 – Badger Farm

9th February 2025

Badger farm always seems to be a firm favorite amongst runners for both RR10 and CC6 races and this round didn't disappoint. Wet weather in the lead up to the meet had the course in very slippery and treacherous condition, which made it all the more fun! Lots of steep ascent and descent and off-camber sections to keep you focused! A 'proper' cross country outing this one!

Men's Results:

Yet another strong finish from Daniel Latham leading the Hardley men home in 11th, followed closely by Simon Ibbotson in 17th and Daniel Parker-Hales in 18th. The Men's team scored 90 points, coming in 5th position. Well done also to Mick Anglim who was 1st in the MV70 category.

Women's Team Results

The women's team unfortunately suffered from some incomplete turnouts this year which cost them points, but despite this still managed a very respectable 11th place in the league. Hopefully we can turn out full teams at every round next year and show everyone how strong our runners are!

Conclusion

It's amazing what we have achieved this year, and I am very proud of every runner who turned up on a cold Sunday morning to represent the club and put in their best efforts. Whilst it is great to celebrate the runners finishing at the front of the field, I think it equally important to recognize that every runner turns up and puts in the same amount of effort relative to their ability. If anything, runners finishing further down the order are running for longer and putting in more work than those at the front!

I'm excited to see what we can do as a club in the RR10 season this summer!
